

FIRE RISK ASSESSMENT

PROPERTY ASSESSED:
Belfield Court
Loscoe
Loscoe

DE75 7LB

UPRN: 6891

Inspection Date: 15/08/2022 **Validation Date:** 20/09/2022

Valid to: 20/09/2024

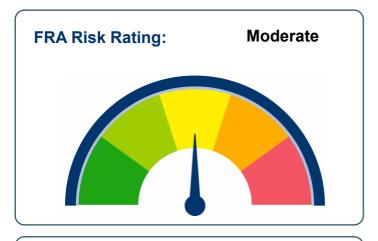

FRA completed by: Pennington Choices

FRA Completed For: Futures

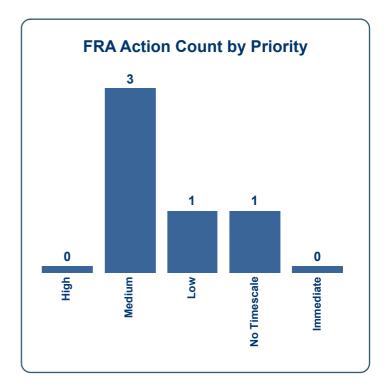

Executive Summary

FRA Action by Type	
Recommendations: 1	
Actions: 4	

Premises Risk Rating: Moderate

Reassessment Priority: Medium - 2 Years

Recommended evacuation strategy for this building is: Simultaneous Evacuation

On satisfactory completion of all remedial works the risk rating of this building may be reduced to:: Tolerable

FRA - Summary

Responsible Person	CEO Futures
Property Designation	Community Centre
Management Extent	Partially Managed Building - Manager or Senior Staff not onsite regularly
No of Floors	1
No of Flats (if applicable)	0
Ground floor Area (m2)	16
Total Area of all floors (m2)	16

FRA Completed By:	Gary Broadhurst
FRA Type:	Type 1
QA Validation Date:	20/09/2022
QA Carried Out By:	Jack McLinden

Validator's Signature:

General Information

UPRN	6891
Address	Belfield Court Loscoe Loscoe
Postcode	DE75 7LB
Fire Risk Assessor	Gary Broadhurst
Date of Inspection	15/08/2022
Checked by	Jack McLinden
Reassessment Date	15/08/2024

General Information

Property Designation	Community Centre
Property Type	Purpose built community centre
No of Floors	1
No of Flats (if applicable)	0
Ground floor area (m2)	16
Total area of all floors	16
Building Description	The Laundry Belfield court. The purpose-built single storey laundry room is detached and set back from the road Facilities inside include wash and dry facilities for communal use The property has one entrance/exit door which is locked by a key and is provided with thumb turn device inside There were no internal doors, and the windows can be opened to provide fresh air and ventilation Waste is removed by the service users on the day The escape routes inside and outside were clear of obstruction and the equipment inside appeared in good condition however advice was given to display a current electric test certificate on the wall The property is provided with a simple fire detection and warning system consisting of domestic smoke detector on the ceiling which will self-reset No Firefighting equipment is provided, and Signage should include a general fire action notice for all service users Overall, the property appeared well kept, and clean and tidy
Building Construction	Traditional brick with pitched and tiled roof

Extent of common areas	Laundry
Areas of the building to which access was not available	None
If applicable state which flats were sample inspected	N/A

Ref.	Question	Policy Principles
17	Identify any people who are especially at risk: - sleeping occupants - disabled occupants - occupants in remote areas and lone workers - young persons - others	
Answe	or .	Finding/Observation
Lone v	orkers and service users who may have disabilities	

2. Fire Safety Legislation

Ref.	Question	Policy Principles
21	The following fire safety legislation applies to these premises	
Answer		Finding/Observation
Regulato	ry Reform (Fire Safety) Order 2005	
Ref.	Question	Policy Principles
22	The above legislation is enforced by	
Answer		Finding/Observation
Derbyshi	re Fire and Rescue Service	
Ref.	Question	Policy Principles
23	Other key fire safety legislation (other than Building Regs 2000)	
Answer		Finding/Observation
None		
Ref.	Question	Policy Principles
24	The other legislation referred to above is enforced by	
Answer		Finding/Observation
N/A		
Ref.	Question	Policy Principles
25	Guidance used as applicable to premises and occupation	
Answer		Finding/Observation
Small & N	Medium Places of Assembly	
Ref.	Question	Policy Principles
26	Is there an alteration or enforcement notice in force?	
Answer		Finding/Observation
No		
Ref.	Question	Policy Principles
27	Fire loss experience (since last FRA)	
Answer		Finding/Observation
No		

A. Electrical Ignition Sources

Ref.	Question	Policy Principles
A1	Is the fixed electrical installation periodically inspected and tested, (include dates if known)?	FHG complete Fixed wire testing in line with current regulations every 5 years and complete an annual visual inspection on all properties.
Answe	r	Finding/Observation
Yes		See principle. The washing and drying facilities in the laundry are covered with the mains electrical periodic test
Ref.	Question	Policy Principles
A2	Is PAT testing in common areas carried out?	PAT testing is complete at the time of the visual inspection as mentioned above. All items in the communal areas will be tested.
Answe	r	Finding/Observation
N/A		No Portable electrical items inside the laundry
Ref.	Question	Policy Principles
A3	Is there a policy for personal electrical appliances (consider restrictions of communal supply points such as outlets and T pin outlets)?	All personal items are not to be left in communal areas. Mobility Scooter Policy
Answer		Finding/Observation
Yes		See principle.
Ref.	Question	Policy Principles
A4	Is the use of adapters and leads limited?	
Answe	r	Finding/Observation
Yes		
Ref.	Question	Policy Principles
A5	Are they any PV cells installed and do they have the appropriate isolation systems and signage to assist the fire and rescue service?	
Answe	r	Finding/Observation
No		

B. Smoking Policies

Ref.	Question	Policy Principles		
B1	Are there suitable arrangements to prevent fire as a result from smoking?	No smoking policy ir	n all communal areas	s- signage displayed.
Answer		Finding/Observation	Finding/Observation	
Yes		No signs of smoking the assessment.	No signs of smoking were seen inside the property at the time of the assessment.	
Action/Recommendation			Priority	Due Date
Display no smoking sign inside the laundry			Low	19/Mar/2023

Ref.	Question	Policy Principles
B2	Is the policy being adhered to and are "No smoking" signs provided in the common areas?	
Answer		Finding/Observation
Yes		See B1

C. Arson

Ref.	Question	Policy Principles
C1	Are premises secure against arson by outsiders? (Please state how)	
Answer		Finding/Observation
Yes		The entrance door was secure and working at the time of the site visit and is opened and locked by a key

Image: C11

Ref.	Question	Policy Principles
C2	Are bins secured or fire loading stored in a suitable location? (Please state bin type, location, if and how it is secured)	
Answer		Finding/Observation
N/A		Waste and recycling are removed from the building by service users

D. Portable Heaters And Heating Installations

Ref.	Question	Policy Principles	
D1	If used, is the use of portable heaters regarded as safe?		
Answer		Finding/Observation	
N/A			
Ref.	Question	Policy Principles	
D2	Are fixed heating systems maintained annually?	All Safety inspections carried out annually by qualified persons.	
Answe	r	Finding/Observation	
Yes		See principal answer. No heating is provided inside	

E. Cooking

Ref.	Question	Policy Principles
E1	Are reasonable measures in place to prevent fires as a result of cooking, including replacing filter(where necessary)?	
Answer		Finding/Observation
N/A		No cooking facilities provided

F. Lightning

Ref.	Question	Policy Principles
F1	Does the building have a lightning protection system?	No lightning protection policy in place
Answer		Finding/Observation
No		No lightning protection system was seen on site.

G. House-Keeping

Ref.	Question	Policy Principles
G1	Are combustible materials kept away from any sources of ignition, including gas and electrical intake cupboards?	
Answer		Finding/Observation
Yes		

Ref.	Question	Policy Principles	
G2	Are the escape routes kept clear of items combustible materials or waste and free of any trip hazards?		
Answer		Finding/Observation	
Yes		The laundry room was clear at the time of the site visit	

Ref.	Question	Policy Principles
G3	Are mobility scooters or electric vehicles stored in the means of escape? If yes has an assessment been undertaken in line with the NFCC "Mobility Scooter Guidance for Residential Buildings"?	
Answer		Finding/Observation
No		

H. Hazards Introduced By Contractors

Ref.	Question	Policy Principles		
H1	Is there satisfactory control over works carried out in the building by contractors (e.g. hot work permits)?			
Answer		Finding/Observation		
Unknown		Evidence was not available to confirm there is satisfactory control over works carried out in the building by contractors (e.g. hot work permits).		
Action/Recommendation		Prior	rity	Due Date
A documented procedure is recommended for ensuring all contractors are controlled on site and only operate within approved industry standards. This should include a permit to work and a hot work permit procedure where appropriate. All contractors should be advised of the emergency procedures and hazardous areas.		. This	ium	19/Dec/2022

I. Dangerous Substances

Ref.	Question	Policy Principles	
11	If dangerous substances are used, has a risk assessment been carried out as required by the Dangerous Substances and Explosives Atmospheres Regulations 2002 and are they stored correctly? All contractors must submit RAMS for procurement pro and these are reviewed annually by FHG. A specific risk assessment is to be completed for each assessment as the complete for each assessment is to be completed for each assessment as the complete for each assessment is to be completed for each assessment as the complete for each assessment is to be completed for each a		
Answer		Finding/Observation	
N/A		See principle.	

J. Other Significant Hazards

Ref.	Question	Policy Principles
J1	Are all issues deemed satisfactory? [1]	
Answer		Finding/Observation
Yes		
Ref.	Question	Policy Principles
J2 Are all issues deemed satisfactory?		
Answer		Finding/Observation
Yes		

K. Means Of Escape

Ref.	Question	Policy Principles		
K1	Is the escape route design deemed satisfactory? (Consider current design codes)	ry?		
Answer		Finding/Observation		
Yes				
Ref.	Question	Policy Principles		
K2	Is the fire-resisting construction (including any glazing) protecting escape routes and staircases of a suitable standard and maintained in sound condition?			
Answe	r	Finding/Observation		
N/A		The laundry room is open plan		
Ref.	Question	Policy Principles		
K3	Is there adequate provision of exits (including exit Widths) for the numbers who may be present?			
Answe	r	Finding/Observation		
Yes		There is only one exit at the front		
Ref.	Question	Policy Principles		
K4	Are doors on escape routes easily opened? (and are sliding or revolving doors avoided?)			
Answe	r	Finding/Observation		
Yes				
Ref.	Question	Policy Principles		
K5	Do final exits open in the direction of escape where necessary?			
Answe	r	Finding/Observation		
Yes				
Ref.	Question	Policy Principles		
K6	Are travels distances satisfactory? (consider single direction and more than one direction, property risk profile and occupancy characteristics)			
Answer		Finding/Observation		
Yes				
Ref.	Question	Policy Principles		
K7	Are there suitable precautions for all inner rooms?			
Answe	r	Finding/Observation		
N/A				

Ref.	Question	Policy Principles	
K8	Are escape routes separated where appropriate?		
Answer		Finding/Observation	
N/A			
Ref.	Question	Policy Principles	
K9	Are corridors sub-divided where appropriate?		
Answei	r	Finding/Observation	
N/A			
Ref.	Question	Policy Principles	
K10	Do escape routes lead to a place of safety?		
Answei	r	Finding/Observation	
Yes		The room leads to the final exit door and outside.	
Ref.	Question	Policy Principles	
K11	Are the stairs and/or lobbies provided with adequate ventilation? (If considered satisfactory, please state provision)		
Answei	r	Finding/Observation	
N/A			
Ref.	Question	Policy Principles	
K12	Is there any other issues that could affect the means of escape, for example plastic conduit/loose cables not secured by fire rated fastening?		
Answei	r	Finding/Observation	
No			

L. Flat Entrance Doors

Ref.	Question	Policy Principles
L1	Are the sample inspection flat entrance door or doors in good condition and appropriately fire rated?	
Answer		Finding/Observation
N/A		

M. Common Area Fire Doors

Ref.	Question	Policy Principles
M1	Are all common area fire door and frames in good condition and appropriately fire rated?	
Answer		Finding/Observation
N/A		

N. Emergency Lighting

Ref.	Question	Policy Principles
N1	If emergency lighting is provided, is the coverage sufficient and in good repair? (Internal and external)	
Answe	r	Finding/Observation
Yes		The lighting is satisfactory
Ref.	Question	Policy Principles
N2	If EL not provided, is borrowed/artificial lighting sufficient for escape? (Internal and external)	
Answer		Finding/Observation
Yes		

O. Fire Safety Signs & Notices

Ref.	Question	Policy Principles			
O1	Is there adequate provision of visible fire safety signs and notices? (Consider directional, exits, stairs, fire action notices, Fire door keep shut, fire equipment and 'do not use lift' signage)				
Answe	er	Finding/Observation	Finding/Observation		
No		There is no fire actio	There is no fire action notice displayed		
Action/Recommendation			Priority	Due Date	
Display a fire action notice inside			Medium	19/Dec/2022	

Ref.	Question	Policy Principles
O2	Wayfinding Signage (buildings over 11 metres in height). Are there clear markings for flat and floor recognition provided?	
Answer		Finding/Observation
N/A		

P. Means Of Giving Warning In Case Of Fire

mestic hard wired smoke detector
a do uate

Image: P11

P6

Answer Yes Where appropriate, are there adequate arrangements for silencing and resetting an alarm condition?

Ref.	Question	Policy Principles
P2	If installed, is the common area AFD adequate for the occupancy and fire risk?	
Answer		Finding/Observation
Yes		See P1
Ref.	Question	Policy Principles
P3	If not installed, are the premises deemed safe without a common area AFD system?	
Answer		Finding/Observation
N/A		
Ref.	Question	Policy Principles
P4	If there is a communal fire detection and fire alarm system, does it extend into the dwellings?	
Answe	er .	Finding/Observation
N/A		
Ref.	Question	Policy Principles
P5	Where appropriate, has a fire alarm zone plan been provided?	
Answer		Finding/Observation
N/A		
Ref.	Question	Policy Principles

Finding/Observation

The system is self resetting

Ref.	Question	Policy Principles
P7	If applicable, is a separate domestic hard-wired smoke/heat alarm within the flats installed to a suitable standard?	
Answer		Finding/Observation
N/A		
Ref.	Question	Policy Principles
P8	If applicable (Sheltered scheme) is the smoke detection within the flats monitored by an alarm receiving centre/on site scheme manager via a telecare system?	
Answer		Finding/Observation
N/A		

Q. Measures To Limit Fire Spread And Development

Ref.	Question	Policy Principles
Q1	Is there adequate levels of compartmentation between floors and between flats and the common escape routes?	
Answer		Finding/Observation
N/A		

Ref.	Question	Policy Principles
Q2	Are hidden voids appropriately enclosed and/or fire-stopped? (consider above suspended ceilings)	
Answer		Finding/Observation
N/A		

Ref.	Question	Policy Principles
Q3	Is there adequately fire protected service risers and/or ducts in common areas, that will restrict the spread of fire and smoke?	
Answer		Finding/Observation
N/A		

Ref.	Question	Policy Principles		
Q4	Is compartmentation maintained in the roof space?			
Answer		Finding/Observation		
Unknown		The property is single storey and only attached to a single storey bungalow		
Action/Recommendation			Priority	Due Date
Management should confirm that the the fire separation between the laundry and		undry and	Medium	19/Dec/2022

Ref.	Question	Policy Principles
Q5 Are electrics, including embedded meters, enclosed in fire rated construction?		
Answer		Finding/Observation
N/A		The laundry is provided with an RCD box on the wall
Images	, , , , , , , , , , , , , , , , , , ,	

Image: Q51

flat is satisfactory

Ref.	Question	Policy Principles
Q6	As far as can reasonably be ascertained, are fire dampers provided as necessary to protect critical means of escape against passage of fire, smoke and products of combustion in the early stages of a fire?	
Answer		Finding/Observation
N/A		

Ref.	Question	Policy Principles
Q7	Is there reasonable limitation of linings to escape routes that might promote fire spread?	
Answer		Finding/Observation
Yes		Walls and surface finishing's appeared to comply with class "0" materials.

Ref.	Question	Policy Principles	
Q8	Are soft furnishings in common areas appropriate to limit fire spread/growth?		
Answer		Finding/Observation	
Yes		The furniture appeared in good condition and consists of wooden benches	

Images

Image: Q81

Ref.	Question	Policy Principles
Q9	Does the premises have any external balconies, cladding or materials which may promote external fire spread?	
Answer		Finding/Observation
No		

Ref.	Question	Policy Principles
Q10	Has a note been prepared of the external walls of the building and details of construction materials used? Does the note include and identify the level of risk that the design and materials used?	
Answe	r	Finding/Observation
N/A		

Ref.	Question	Policy Principles
Q11	Does the External wall note include any mitigating circumstances that may have been taken to reduce the risk?	
Answe	r	Finding/Observation
N/A		
Ref.	Question	Policy Principles
Q12	Has the responsible person reviewed the external wall note on a regular basis and revised it if there have been any significant changes in the external walls.	
Answe	r	Finding/Observation
N/A		
Ref.	Question	Policy Principles
Q13	Are all other fire spread/compartmentation issues satisfactory?	
Answer		Finding/Observation
Yes		

R. Fire Extinguishing Appliances

Ref.	Question	Policy Principles
R1	if required, is there reasonable provision of accessible portable fire extinguishers?	
Answer		Finding/Observation
N/A		No Fire fighting equipment provided for use by service users

S. Relevant Automatic Fire Extinguishing Systems

Ref.	Question	Policy Principles
S1	Are there any automatic fire suppressant systems on site?	
Answe	r	Finding/Observation
No		
Ref.	Question	Policy Principles
S2	Are there any fixed fire fighting mains within the premises?	
Answe	r	Finding/Observation
No		
Ref.	Question	Policy Principles
S3	If any other relevant systems / equipment is installed, state type of system and comment as necessary	
Answer		Finding/Observation
No		

T. Procedures And Arrangements

Ref.	Question	Policy Principles
T1	Recommended evacuation strategy for this building is	
Answer		Finding/Observation
Simultaneous Evacuation		
Ref.	Question	Policy Principles
T2	Has a competent person(s) been appointed to assist in undertaking the preventative and protective measures including in house checks?	
Answer		Finding/Observation
Yes		The visiting officer was aware of all fire safety provisions and requirements for the site, and carries out regular inspections.
Ref.	Question	Policy Principles
Т3	Are there appropriate documented fire safety arrangements and procedures in place in the event of fire?	
Answer		Finding/Observation
No		fire action notices should be provided explaining what to do if a person hears the fire alarm or discovers a fire. See O1
Ref.	Question	Policy Principles
T4	Are there suitable arrangements for liasion and calling the Fire Service?	
Answer		Finding/Observation
Yes		Staff, service users or contractors will call 999.
Ref.	Question	Policy Principles
T5	Are there suitable fire assembly points away from any risk?	
Answer		Finding/Observation
Yes		The fire assembly point is outside and is clear of the building.
Ref.	Question	Policy Principles
Т6	Are there adequate procedures in place for the evacuation of disabled people who are likely to be present?	
Answer		Finding/Observation
N/A		
Ref.	Question	Policy Principles
Т7	Are staff nominated and trained on the use of fire extinguishing appliances?	
Answer		Finding/Observation
N/A		

Ref.	Question	Policy Principles
Т8	Are staff nominated and trained to assist in evacuation (Where applicable e.g. Offices, supported schemes)?	
Answer		Finding/Observation
N/A		

U. Training

Ref.	Question	Policy Principles
U1	Do staff receive adequate induction and annual refresher fire safety training? (To include fire risks in the premises, fire safety measures in the building, action in the event of fire and on hearing alarm, location and use of fire extinguishers, calling the fire service)	All touchdown points (small offices) staff receive Inductions and annual refreshers on fire safety fire safety. But at all the schemes no permanent staff are present.
Answer		Finding/Observation
N/A		See principal
Ref.	Question	Policy Principles
U2	Are employees nominated to assist in the event of fire given additional training?	
Answer		Finding/Observation
N/A		

V. Testing And Maintenance

Ref.	Question	Policy Principles
V1	Are all fire safety provisions for the building (AFD, Emergency Lighting, sprinklers etc.) routinely tested and maintained?	Alarms- FHG Greenscapes, MITIE E/L- FHG Greenscapes, MITIE, Assets Surveyor Extinguishers- MITIE Fire Doors- FHG Greenscapes, Assets Surveyor Final Exits/ Escape Routes- Greenscapes/ Neighbourhoods
Answer		Finding/Observation
Yes		All fire safety provisions require testing in accordance with the relevant guides or standards

W. Records

Ref.	Question	Policy Principles
W1	Is all routine testing and staff training including fire drills suitably recorded and available for inspection?	
Answer		Finding/Observation
Yes		Records are available to view online

X. Premises Information Box

Ref.	Question	Policy Principles
X1	Is a Premises Information Box located at the premises accessible to the Fire and Rescue Service, secure from unauthorised access and kept up to date?	Log book is kept on SharePoint with proposed specific QR code access.
Answer		Finding/Observation
N/A		Not required.

Y. Engagement With Residents

Ref.	Question	Policy Principles
Y1	Has all Fire Safety information & procedures been disseminated to the residents?	
Answer		Finding/Observation
N/A		

Z. Any Other Information

Question	Policy Principles		
Are all issues deemed satisfactory? [1]			
	Finding/Observation		
Question	Delicy Principles		
Question	Policy Principles		
Are all issues deemed satisfactory?			
	Finding/Observation		
	Are all issues deemed satisfactory? [1] Question Are all issues deemed satisfactory?		

ZAAR. Assessment Risk Ratings

Ref.	Question	Policy Principles
ZAAR1	Likelihood of Fire Low: Unusually low likelihood of fire as a result of negligible potential sources of ignition. Medium: Normal fire hazards (e.g. potential ignition sources) for this type of occupancy, with fire hazards generally subject to appropriate controls (other than minor shortcomings). High: Lack of adequate controls applied to one or more significant fire hazards, such as to result in significant increase in likelihood of fire	
Answer		Finding/Observation
Medium		

Ref.	Question	Policy Principles
ZAAR2	Potential Consequences of Fire Slight harm: Outbreak of fire unlikely to result in serious injury or death of any occupant. Moderate harmful: Outbreak of fire could foreseeably result in injury (including serious injury) of one or more occupants, but it is unlikely to involve multiple fatalities. Extreme harm: Significant potential for serious injury or death of one or more occupants likely to involve multiple fatalities	
Answer		Finding/Observation
Moderate Harm		

Ref.	Question	Policy Principles
ZAAR3	Premises Risk Rating	
	Trivial: No action is required and no detailed records	
	need be kept	
	Tolerable: No major additional controls required.	
	However, there might be a need for improvements that	
	involve minor or	
	limited cost.	
	Moderate: It is essential that efforts are made to	
	reduce the risk. Risk reduction measures should be	
	implemented within a	
	defined time period. Where moderate risk is	
	associated with consequences that constitute	
	extreme harm, further	
	assessment might be required to establish more	
	precisely the likelihood of harm as a basis for	
	determining the	
	priority for improved control measures.	
	Substantial: Considerable resources might have to be	
	allocated to reduce the risk. If the building is	
	unoccupied, it should not	
	be occupied until the risk has been reduced. If the	
	building is occupied, urgent action should be taken.	
	Intolerable: Building (or relevant area) should not be	
	occupied until the risk is reduced	
Answer		Finding/Observation
Moderat	e	

Ref.	Question	Policy Principles		
ZAAR4 On satisfactory completion of all remedial works the risk rating of this building may be reduced to:				
Answer		Finding/Observation		
Tolerable				

Risk Rating

The following simple risk level estimator is based on a more general health and safety risk level estimator of the type contained in BS 8800:

Libelihaad of five	Potential consequences of fire			
Likelihood of fire	Slight Harm	Moderate Harm	Extreme Harm	
Low	Trivial	Tolerable	Moderate	
Medium	Tolerable	Moderate	Substantial	
High	Moderate	Substantial	Intolerable	

Taking into account the fire prevention measures observed at the time of this risk assessment, it is considered that the hazard from fire (likelihood of fire) at these premises is:

Medium

In this context, a definition of the above terms is as follows:

Low: Unusually low likelihood of fire as a result of negligible potential sources of ignition.

Medium: Normal fire hazards (e.g. potential ignition sources) for this type of occupancy, with fire hazards generally subject to appropriate controls (other than minor shortcomings).

High: Lack of adequate controls applied to one or more significant fire hazards, such as to result in significant increase in likelihood of fire

Taking into account the nature of the building and occupants, as well as the fire protection and procedural arrangements observed at the time of this fire risk assessment, it is considered that the consequences for life safety in the event of fire would be:

Moderate Harm

In this context, a definition of the above terms is as follows:

Slight harm: Outbreak of fire unlikely to result in serious injury or death of any occupant.

Moderate harmful: Outbreak of fire could foreseeably result in injury (including serious injury) of one or more occupants, but it is unlikely to involve multiple fatali-ties.

Extreme harm: Significant potential for serious injury or death of one or more occupants likely to involve multiple fatalities.

Accordingly, it is considered that the risk to life from fire at these premises is:

Moderate

A suitable risk-based control plan should involve effort and urgency that is proportional to risk. The following risk-based control plan is based on one advocated by BS 8800 for general health and safety risks:

Risk Level	Action and time table
Trivial	No action is required and no detailed records need be kept.
Tolerable	No major additional controls required. However, there might be a need for improvements that involve minor or limited cost.
Moderate	It is essential that efforts are made to reduce the risk. Risk reduction measures should be implemented within a defined time period. Where moderate risk is associated with consequences that constitute extreme harm, further assessment might be required to establish more precisely the likelihood of harm as a basis for determining the priority for improved control measures.
Substantial	Considerable resources might have to be allocated to reduce the risk. If the building is unoccupied, it should not be occupied until the risk has been reduced. If the building is occupied, urgent action should be taken.
Intolerable	Building (or relevant area) should not be occupied until the risk is reduced.

(Note that, although the purpose of this section is to place the risk in context, the above approach to fire risk assessment is subjective and for guidance only. All hazards and deficiencies identified in this report should be addressed by implementing all recommendations contained in the following action plan. The fire risk assessment should be reviewed regularly.)

Life Safety Fire Risk Assessment Certificate of Conformity

This certificate is issued by the organization named in Part 1 of the schedule in respect of fire risk assessment provided for the person(s) or organization named in Part 2 of the schedule at the premises and / or part of the premises identified in Part 3 of the schedule.

Schedule:

Part 1a	Name & Address of Certified Organisation:
	Pennington Choices, Broofield House, Grimsditch Lane, WA4 4EA
Part 1b	BAFE registration number of issuing Certified Organization:
	102119
Part 1c	SSAIB 3rd Party Certificate Number:
	CHES077
Part 2	Name of Client:
	CEO Futures
Part 3a	Address of premises for which the fire risk assessment was carried out:
	Belfield Court Loscoe Loscoe DE75 7LB
Part 3b	Part or parts of the premises to which the fire risk assessment applies:
	Common Parts only (not dwellings, where applicable)
Part 4	Brief description of the scope and purpose of the fire risk assessment:
	Life Safety (as per agreed Specification)
Part 5	Effective date of the fire risk assessment:
	15/08/2022
Part 6	Recommended date for reassessment of the premises:
	15/08/2024
Part 7	Unique reference number of this certificate:
	109717

Signed for and on behalf of the issuing Certificated Organization:

James Hutton

Dated: 9/20/2022

Appendix 1. Action Details

Ref.	Category	Priority	Comments	Recommendation	Quantity	To Be Completed By	Photo Ref.
B1	SMOKING POLICIES	Low	No signs of smoking were seen inside the property at the time of the assessment.	Display no smoking sign inside the laundry		19/03/2023	
F1	LIGHTNING	No Timescale	No lightning protection system was seen on site.	Recommend management undertake a risk assessment of the building to determine if lightning protection is required			
H1	HAZARDS INTRODUCED BY CONTRACTORS	Medium	Evidence was not available to confirm there is satisfactory control over works carried out in the building by contractors (e.g. hot work permits).	A documented procedure is recommended for ensuring all contractors are controlled on site and only operate within approved industry standards. This should include a permit to work and a hot work permit procedure where appropriate. All contractors should be advised of the emergency procedures and hazardous areas.		19/12/2022	
O1	FIRE SAFETY SIGNS & NOTICES	Medium	There is no fire action notice displayed	Display a fire action notice inside		19/12/2022	
Q4	MEASURES TO LIMIT FIRE SPREAD AND DEVELOPMENT	Medium	The property is single storey and only attached to a single storey bungalow	Management should confirm that the the fire separation between the laundry and flat is satisfactory		19/12/2022
