

# FIRE RISK ASSESSMENT

PROPERTY ASSESSED: 14-17 Howe Crescent Daventry Daventry

**NN11 4LX** 

**UPRN: 2030001** 

**Inspection Date:** 29/08/2022 **Validation Date:** 20/09/2022

**Valid to:** 20/09/2024

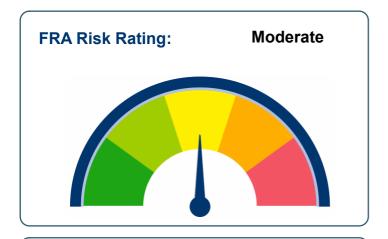

FRA completed by: Pennington Choices

FRA Completed For: Futures

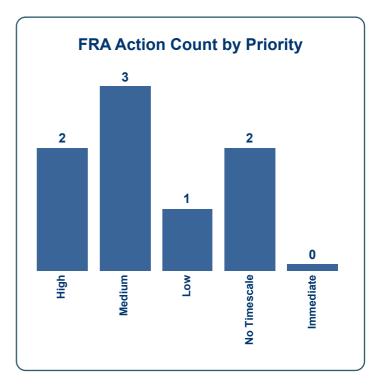

# **Executive Summary**

FRA Action by Type		
Recommendations: 2		
Actions:	6	

**Premises Risk Rating: Moderate** 

Reassessment Priority: Medium - 2 Years

Recommended evacuation strategy for this building is: Stay Put

On satisfactory completion of all remedial works the risk rating of this building may be reduced to:: Tolerable

### **FRA - Summary**

Responsible Person	Lindsey Williams, CEO Futures
Property Designation	General needs
Management Extent	Partially Managed Building - Manager or Senior Staff not onsite regularly
No of Floors	2
No of Flats (if applicable)	4
Ground floor Area (m2)	80
Total Area of all floors (m2)	160

### **General Information**

UPRN	2030001
Address	14-17 Howe Crescent Daventry Daventry
Postcode	NN11 4LX
Fire Risk Assessor	Gary Broadhurst
Date of Inspection	29/08/2022
Checked by	James Hutton
Reassessment Date	29/08/2024

### **General Information**

Property Designation	General needs
Property Type	Purpose built block of flats
No of Floors	2
No of Flats (if applicable)	4
Ground floor area (m2)	80
Total area of all floors	160
Building Description	14-17 Howe Crescent. The purpose-built 2 storey block of flats is set within a large housing estate  The property has two exit doors one is the main entrance door, and the other at the rear of the building. Both doors are provided with overhead self-closing device and push to release buttons  A fireman's door override switch is provided on the front wall  Two flats are provided on each floor level  The flats are provided with new fire doors which were all in good condition based on visual inspection however some doors are of different types and no access was provided inside any flats to establish if they are compliant  It is recommended that the doors are further inspected by a qualified surveyor to ensure they are fit for purpose  The windows on the stairs are fixed and cannot be opened although open louvres are provided above one window for ventilation  Waste bins are stored outside in the yard  The escape routes including the stairs were generally clear of obstruction  The property is not provided with a fire detection and warning system in the common areas as the evacuation strategy is Stay Put.

	There is no provision of firefighting equipment, and signage appeared suitable for the property and end users which included, general fire action notices, no smoking signs and fire action notices  Emergency lights are provided which cover all escape routes and are identified by green LED  No access was provided into any apartments  Overall, the property appeared well kept, and clean and tidy
Building Construction	Traditional construction of brick with pitched and tiled roof
Extent of common areas	Stairs and landings
Areas of the building to which access was not available	roof space and flats
If applicable state which flats were sample inspected	None

Ref.	Question	Policy Principles
17	Identify any people who are especially at risk: - sleeping occupants - disabled occupants - occupants in remote areas and lone workers - young persons - others	
Answe	r	Finding/Observation
This is a "general needs" block of flats that will have sleeping occupants. It is conceivable that there may be young persons, the elderly and children within the flats as part of families who reside there. There may also be occupants with varying degrees of physical/mental impairment. In addition, lone workers may be present within common parts of the premises.		

### 2. Fire Safety Legislation

Ref.	Question	Policy Principles
21	The following fire safety legislation applies to these premises	
Answer		Finding/Observation
Regulato	ory Reform (Fire Safety) Order 2005	
Ref.	Question	Policy Principles
22	The above legislation is enforced by	
Answer		Finding/Observation
Northam	ptonshire Fire and Rescue Service	
Ref.	Question	Policy Principles
23	Other key fire safety legislation (other than Building Regs 2000)	
Answer		Finding/Observation
Housing	Act 2004	
Ref.	Question	Policy Principles
24	The other legislation referred to above is enforced by	
Answer		Finding/Observation
Northam	pton Council	
Ref.	Question	Policy Principles
25	Guidance used as applicable to premises and occupation	
Answer		Finding/Observation
Home O Blocks	ffice (September 2021) Fire Safety in Purpose Built	
Ref.	Question	Policy Principles
26	Is there an alteration or enforcement notice in force?	
Answer		Finding/Observation
No		
Ref.	Question	Policy Principles
27	Fire loss experience (since last FRA)	
Answer		Finding/Observation
No		

### A. Electrical Ignition Sources

Ref.	Question	Policy Principles
A1	Is the fixed electrical installation periodically inspected and tested, (include dates if known)?	FHG complete Fixed wire testing in line with current regulations every 5 years and complete an annual visual inspection on all properties.
Answer		Finding/Observation
Yes		See principle.
Ref.	Question	Policy Principles
A2	Is PAT testing in common areas carried out?	PAT testing is complete at the time of the visual inspection as mentioned above. All items in the communal areas will be tested.
Answer		Finding/Observation
N/A		There are no portable electrical items in the common areas.
Ref.	Question	Policy Principles
A3	Is there a policy for personal electrical appliances (consider restrictions of communal supply points such as outlets and T pin outlets)?	All personal items are not to be left in communal areas.  Mobility Scooter Policy
Answer		Finding/Observation
Yes		See principle.
Ref.	Question	Policy Principles
A4	Is the use of adapters and leads limited?	
Answer		Finding/Observation
N/A		
Ref.	Question	Policy Principles
A5	Are they any PV cells installed and do they have the appropriate isolation systems and signage to assist the fire and rescue service?	
Answer		Finding/Observation
No		

### **B. Smoking Policies**

Ref.	Question	Policy Principles
B1	Are there suitable arrangements to prevent fire as a result from smoking?	No smoking policy in all communal areas- signage displayed.
Answer		Finding/Observation
Yes		No smoking signs displayed and No signs of smoking were seen inside the property at the time of the assessment.
. Lucana		seen inside the property at the time of the assessment.

#### Images

#### Image: B11

Ref.	Question	Policy Principles
B2	Is the policy being adhered to and are "No smoking" signs provided in the common areas?	
Answer		Finding/Observation
No		See B1

### C. Arson

Ref.	Question	Policy Principles
C1	Are premises secure against arson by outsiders? (Please state how)	
Answe	r	Finding/Observation
Yes		The entrance door was locked and secure with electronic entry device and both doors are provided with push to release buttons

#### **Images**

Image: C11

Ref.	Question	Policy Principles
C2	Are bins secured or fire loading stored in a suitable location? (Please state bin type, location, if and how it is secured)	
Answer		Finding/Observation
Yes		Waste and recycling are stored outside in the yard

#### Images

Image: C21

### D. Portable Heaters And Heating Installations

Ref.	Question	Policy Principles
D1	If used, is the use of portable heaters regarded as safe?	
Answer		Finding/Observation
N/A		
Ref.	Question	Policy Principles
D2	Are fixed heating systems maintained annually?	All Safety inspections carried out annually by qualified persons.
Answer		Finding/Observation
N/A		No heating is provided in the common areas.

### E. Cooking

Ref.	Question	Policy Principles
E1	Are reasonable measures in place to prevent fires as a result of cooking, including replacing filter(where necessary)?	
Answer		Finding/Observation
N/A		No cooking facilities within the communal areas.

### F. Lightning

Ref.	Question	Policy Principles
F1	Does the building have a lightning protection system?	No lightning protection policy in place
Answer		Finding/Observation
No		No lightning protection system was seen on site.

### G. House-Keeping

Ref.	Question	Policy Principles
G1	Are combustible materials kept away from any sources of ignition, including gas and electrical intake cupboards?	
Answer		Finding/Observation
Yes		

Ref.	Question	Policy Principles
G2	Are the escape routes kept clear of items combustible materials or waste and free of any trip hazards?	
Answer		Finding/Observation
Yes		All common area escape routes including the stairs were generally clear of items

#### Images

#### Image: G21

Ref.	Question	Policy Principles
G3	Are mobility scooters or electric vehicles stored in the means of escape?  If yes has an assessment been undertaken in line with the NFCC "Mobility Scooter Guidance for Residential Buildings"?	
Answer	r	Finding/Observation
No		

### H. Hazards Introduced By Contractors

Ref.	Question	Policy Principles
H1	Is there satisfactory control over works carried out in the building by contractors (e.g. hot work permits)?	
Answer		Finding/Observation
Unknow	n	Evidence was not available to confirm there is satisfactory control over works carried out in the building by contractors (e.g. hot work permits). FHG ensure all contractors provide RAMS which are reviewed on a annual basis.

### I. Dangerous Substances

Ref.	Question	Policy Principles
I1	If dangerous substances are used, has a risk assessment been carried out as required by the Dangerous Substances and Explosives Atmospheres Regulations 2002 and are they stored correctly?	All contractors must submit RAMS for procurement processes, and these are reviewed annually by FHG.  A specific risk assessment is to be completed for each job.
Answer		Finding/Observation
N/A		See principle.

### J. Other Significant Hazards

Ref.	Question	Policy Principles
J1	Are all issues deemed satisfactory? [1]	
Answei	•	Finding/Observation
Yes		
Ref.	Question	Policy Principles
J2	Are all issues deemed satisfactory?	
Answer		Finding/Observation
Yes		

### K. Means Of Escape

Ref.	Question	Policy Principles
K1	Is the escape route design deemed satisfactory? (Consider current design codes)	
Answer		Finding/Observation
Yes		

Ref.	Question	Policy Principles
K2	Is the fire-resisting construction (including any glazing) protecting escape routes and staircases of a suitable standard and maintained in sound condition?	
Answe	r	Finding/Observation
Yes		The fire doors were different types and no access was provided inside the flats. See L1

### Images

#### Image: K21

Ref.	Question	Policy Principles	
К3	Is there adequate provision of exits (including exit Widths) for the numbers who may be present?		
Answer		Finding/Observation	
Yes		Two exits are provided on the ground floor	
Ref.	Question	Policy Principles	
K4	Are doors on escape routes easily opened? (and are sliding or revolving doors avoided?)		
Answer		Finding/Observation	
Yes		The main entrance and rear exit door are provided with push to	

Ref.	Question	Policy Principles
K5	Do final exits open in the direction of escape where necessary?	
Answer		Finding/Observation
Yes		

release devices which worked as they should

Ref.	Question	Policy Principles	
K6	Are travels distances satisfactory? (consider single direction and more than one direction, property risk profile and occupancy characteristics)		
Answe	r	Finding/Observation	
Yes			
Ref.	Question	Policy Principles	
K7	Are there suitable precautions for all inner rooms?		
Answe	r	Finding/Observation	
N/A			
Ref.	Question	Policy Principles	
K8	Are escape routes separated where appropriate?		
Answe	r	Finding/Observation	
N/A			
Ref.	Question	Policy Principles	
K9	Are corridors sub-divided where appropriate?		
Answer		Finding/Observation	
N/A			
Ref.	Question	Policy Principles	
K10	Do escape routes lead to a place of safety?		
Answe	r	Finding/Observation	
Yes		All escape routes lead to stairs and the final exit door.	
Ref.	Question	Policy Principles	
K11	Are the stairs and/or lobbies provided with adequate ventilation? (If considered satisfactory, please state provision)		
Answer		Finding/Observation	
Yes		The stairs are not provided with opening windows however open louvres are provided above the window which allows fresh air to enter	
Images		<del>- '</del>	

Image: K111

Ref.	Question	Policy Principles
K12	Is there any other issues that could affect the means of escape, for example plastic conduit/loose cables not secured by fire rated fastening?	
Answer		Finding/Observation
No		

### L. Flat Entrance Doors

Ref.	Question	Policy Princip	les	
L1	Are the sample inspection flat entrance door or doors in good condition and appropriately fire rated?			
Answe	r	Finding/Obser	vation	
Yes		The flat entrance doors all appeared in good condition and newly installed however there are different types and may not be compliant, and no flats were accessed		
Action/Recommendation		'	Priority	Due Date
The flat entrance doors should be surveyed to ensure they will provide the required fire separation in support of an initial stay put policy		de the	High	20/Oct/2022

#### Images

#### Image: L11

### M. Common Area Fire Doors

Ref.	Question	Policy Principles	
M1	Are all common area fire door and frames in good condition and appropriately fire rated?		
Answer		Finding/Observation	
N/A		The only common area doors are the exit doors, which are all in good condition.	

### N. Emergency Lighting

Ref.	Question	Policy Principles
N1	If emergency lighting is provided, is the coverage sufficient and in good repair? (Internal and external)	
Answer		Finding/Observation
Yes		The escape lights cover all the escape routes and are identified by green LED

#### **Images**

#### Image: N11

Ref.	Question	Policy Principles
N2	If EL not provided, is borrowed/artificial lighting sufficient for escape? (Internal and external)	
Answer		Finding/Observation
N/A		

### O. Fire Safety Signs & Notices

Ref.	Question	Policy Principles
O1	Is there adequate provision of visible fire safety signs and notices? (Consider directional, exits, stairs, fire action notices, Fire door keep shut, fire equipment and 'do not use lift' signage)	
Answe	r	Finding/Observation
Yes		Signage was considered adequate and included, information, no smoking and fire action notices

#### **Images**

#### Image: O11

Ref.	Question	Policy Principles
O2	Wayfinding Signage (buildings over 11 metres in height).  Are there clear markings for flat and floor recognition provided?	
Answe	r	Finding/Observation
N/A		

### P. Means Of Giving Warning In Case Of Fire

Ref.	Question	Policy Principles
P1	Is a reasonable fire detection and fire alarm system provided in the common areas, where necessary?	
Answe	r	Finding/Observation
N/A		The building is not fitted with a fire detection system in the common areas as the evacuation strategy is initial stay put
Ref.	Question	Policy Principles
P2	If installed, is the common area AFD adequate for the occupancy and fire risk?	
Answe	r	Finding/Observation
N/A		See P1
Ref.	Question	Policy Principles
P3	If not installed, are the premises deemed safe without a common area AFD system?	
Answe	r	Finding/Observation
Yes		
Ref.	Question	Policy Principles
P4	If there is a communal fire detection and fire alarm system, does it extend into the dwellings?	
Answe	r	Finding/Observation
N/A		
Ref.	Question	Policy Principles
P5	Where appropriate, has a fire alarm zone plan been provided?	
Answe	r	Finding/Observation
N/A		
Ref.	Question	Policy Principles
P6	Where appropriate, are there adequate arrangements for silencing and resetting an alarm condition?	
Answe	r	Finding/Observation
N/A		

Ref.	Question	Policy Principles		
P7	If applicable, is a separate domestic hard-wired smoke/heat alarm within the flats installed to a suitable standard?			
Answer		Finding/Observation	on	
Unknown		No flats were accessed to establish what fire detection is provided inside		
Action/Recommendation			Priority	Due Date
A category LD3 system should be considered the minimum in all circums However, BS 5839-6:2019 states that "heat detectors should be installed kitchen. A smoke detector should be installed in the principal habitable row Where more than one room might be used as the principal habitable room smoke detector should be installed in each of these rooms". It is recomm that each flat is checked to confirm that BS5839-6:2019 Grade D, LD2 defitted.		d in every room. om, a mended	Medium	19/Dec/2022

Ref.	Question	Policy Principles
P8	If applicable (Sheltered scheme) is the smoke detection within the flats monitored by an alarm receiving centre/on site scheme manager via a telecare system?	
Answer		Finding/Observation
N/A		

### Q. Measures To Limit Fire Spread And Development

Ref.	Question	Policy Principles
Q1	Is there adequate levels of compartmentation between floors and between flats and the common escape routes?	
Answer		Finding/Observation
Yes		

Ref.	Question	Policy Principles
Q2	Are hidden voids appropriately enclosed and/or fire-stopped? (consider above suspended ceilings)	
Answer		Finding/Observation
N/A		

Ref.	Question	Policy Principles
Q3	Is there adequately fire protected service risers and/or ducts in common areas, that will restrict the spread of fire and smoke?	
Answe	r	Finding/Observation
Unknown		The meter cupboard was locked shut
Images		

### Image: Q31

Ref.	Question	Policy Principles		
Q4	Is compartmentation maintained in the roof space?			
Answer		Finding/Observation		
Unknown		No access to the roof space is provided		
Action/Recommendation			Priority	Due Date
Management to check compartmentation within the roof space over the area		common	High	20/Oct/2022

Ref.	Question	Policy Principles
Q5	Are electrics, including embedded meters, enclosed in fire rated construction?	
Answer		Finding/Observation
Unknown		See Q3

Ref.	Question	Policy Principl	es		
Q6	As far as can reasonably be ascertained, are fire dampers provided as necessary to protect critical means of escape against passage of fire, smoke and products of combustion in the early stages of a fire?				
Answer		Finding/Obser	vation		
Unknow	/n	No evidence is	kept for inspection on s	ite.	
Action/l	Recommendation		Priority	Due Date	
Manage as requi	ement should confirm that where and if required fire dampers ired	are provided	Medium	19/Dec/2022	
Ref.	Question	Policy Principl	es		
Q7	Is there reasonable limitation of linings to escape routes that might promote fire spread?				
Answer	•	Finding/Obser	vation		
Yes		Walls and surf	ace finishing's appeared materials.	d to comply with	
Ref.	Question	Policy Principl	es		
Q8	Are soft furnishings in common areas appropriate to limit fire spread/growth?				
Answer	•	Finding/Obser	Finding/Observation		
N/A					
Ref.	Question	Policy Principle	es		
Q9	Does the premises have any external balconies, cladding or materials which may promote external fire spread?				
Answer		Finding/Obser	vation		
No			,	,	
Ref.	Question	Policy Principl	es		
Q10	Has a note been prepared of the external walls of the building and details of construction materials used?  Does the note include and identify the level of risk that the design and materials used?				
Answer		Finding/Obser	vation		
N/A					
Ref.	Question	Policy Principl	es		
Q11	Does the External wall note include any mitigating circumstances that may have been taken to reduce the risk?				
	ule lisk:				

Ref.	Question	Policy Principles
Q12	Has the responsible person reviewed the external wall note on a regular basis and revised it if there have been any significant changes in the external walls.	
Answer		Finding/Observation
N/A		
Ref.	Question	Policy Principles
Q13	Are all other fire spread/compartmentation issues satisfactory?	
Answer		Finding/Observation
Yes		

### R. Fire Extinguishing Appliances

Ref.	Question	Policy Principles
R1	if required, is there reasonable provision of accessible portable fire extinguishers?	
Answer		Finding/Observation
N/A		Typically fire extinguishers are not provided within this type of property as residents are unlikely to have been appropriately trained.

# S. Relevant Automatic Fire Extinguishing Systems

Question	Policy Principles
Are there any automatic fire suppressant systems on site?	
r	Finding/Observation
Question	Policy Principles
Are there any fixed fire fighting mains within the premises?	
r	Finding/Observation
Question	Policy Principles
If any other relevant systems / equipment is installed, state type of system and comment as necessary	
r	Finding/Observation
	Are there any automatic fire suppressant systems on site?  Question  Are there any fixed fire fighting mains within the premises?  Question  If any other relevant systems / equipment is installed, state type of system and comment as necessary

### T. Procedures And Arrangements

Ref.	Question	Policy Principles	
T1	Recommended evacuation strategy for this building is		
Answei		Finding/Observation	
Stay Put		As per P1.	
		110000000000000000000000000000000000000	
Ref.	Question	Policy Principles	
T2	Has a competent person(s) been appointed to assist in undertaking the preventative and protective measures including in house checks?		
Answei	•	Finding/Observation	
Yes		The visiting officers are aware of all fire safety provisions and requirements for the site, and carry out regular inspections.	
Ref.	Question	Policy Principles	
Т3	Are there appropriate documented fire safety arrangements and procedures in place in the event of fire?		
Answei		Finding/Observation	
Yes		Fire action notices provide information for persons in the escape routes and for persons inside their flats	
Ref.	Question	Policy Principles	
T4	Are there suitable arrangements for liasion and calling the Fire Service?		
Answei	•	Finding/Observation	
Yes		Staff, contractors, residents or visitors when the building is occupied will call 999.	
Ref.	Question	Policy Principles	
T5	Are there suitable fire assembly points away from any risk?		
Answei	•	Finding/Observation	
Yes		The fire assembly point is outside and is clear of the building.	
Ref.	Question	Policy Principles	
Т6	Are there adequate procedures in place for the evacuation of disabled people who are likely to be present?		
Answei		Finding/Observation	
Unknov	vn	Unable to confirm at the time of the assessment	
Ref.	Question	Policy Principles	
T7	Are staff nominated and trained on the use of fire extinguishing appliances?		
Answei		Finding/Observation	
N/A		No staff on site.	

Ref.	Question	Policy Principles	
Т8	Are staff nominated and trained to assist in evacuation (Where applicable e.g. Offices, supported schemes)?		
Answer		Finding/Observation	
N/A		No staff on site.	

# U. Training

Ref.	Question	Policy Principles		
U1 Do staff receive adequate induction and annual refresher fire safety training? (To include fire risks in the premises, fire safety measures in the building, action in the event of fire and on hearing alarm, location and use of fire extinguishers, calling the fire service)		All touchdown points (small offices) staff receive Inductions and annual refreshers on fire safety fire safety. But at all the schemes no permanent staff are present.		
Answer		Finding/Observation		
N/A		No staff on site.		
Ref.	Question	Policy Principles		
U2	Are employees nominated to assist in the event of fire given additional training?			
Answer		Finding/Observation		
N/A		No staff on site.		

### V. Testing And Maintenance

Ref.	Question	Policy Princip	es	
V1 Are all fire safety provisions for the building (AFD,			Greenscapes, MITIE	
	Emergency Lighting, sprinklers etc.) routinely tested and maintained?	E/L- FHG Gree Extinguishers-	enscapes, MITIE, Assets	Surveyor
	and maintained?	"		Surveyor
		Fire Doors- FHG Greenscapes, Assets Surveyor Final Exits/ Escape Routes- Greenscapes/ Neighbourhoods		•
Answe	er	Finding/Obser	vation	
Yes All fire safety pr relevant guides		rovisions require testing s or standards	in accordance with the	
Action/Recommendation		Priority	Due Date	
The emergency exit push to release release buttons must be tested and re in accordance with BS7273-4:2015			Medium	19/Dec/2022
The fireman's switch must be tested and maintained in accordance with BS		with BS 7671		

#### Images

#### Image: V11

#### W. Records

Ref.	Question	Policy Principles	
W1 Is all routine testing and staff training including fire drills suitably recorded and available for inspection?			
Answer		Finding/Observation	
Yes		Records are available to view on line, which the assessor has no access too.	

### X. Premises Information Box

Ref.	Question	Policy Principles	
X1	Is a Premises Information Box located at the premises accessible to the Fire and Rescue Service, secure from unauthorised access and kept up to date?	Log book is kept on SharePoint with proposed specific QR code access.	
Answei	r	Finding/Observation	
N/A		Not required.	

### Y. Engagement With Residents

Ref.	Question	Policy Principles		
Y1	Has all Fire Safety information & procedures been disseminated to the residents?			
Answer		Finding/Observation		
Unknown		Unknown.		
Action/Recommendation		,	Priority	Due Date
Ensure residents are informed of all relevant fire safety matters using difformats including letters, posters, social media etc		ferent	Low	19/Mar/2023

# Z. Any Other Information

Ref.	Question	Policy Principles
Z1	Are all issues deemed satisfactory? [1]	
Answer		Finding/Observation
Yes		
Ref.	Question	Policy Principles
Z2	Are all issues deemed satisfactory?	
Answer		Finding/Observation
Yes		

# ZAAR. Assessment Risk Ratings

Ref.	Question	Policy Principles
ZAAR1	Likelihood of Fire Low: Unusually low likelihood of fire as a result of negligible potential sources of ignition. Medium: Normal fire hazards (e.g. potential ignition sources) for this type of occupancy, with fire hazards generally subject to appropriate controls (other than minor shortcomings). High: Lack of adequate controls applied to one or more significant fire hazards, such as to result in significant increase in likelihood of fire	
Answer		Finding/Observation
Medium		

Ref.	Question	Policy Principles
ZAAR2	Potential Consequences of Fire Slight harm: Outbreak of fire unlikely to result in serious injury or death of any occupant. Moderate harmful: Outbreak of fire could foreseeably result in injury (including serious injury) of one or more occupants, but it is unlikely to involve multiple fatalities. Extreme harm: Significant potential for serious injury or death of one or more occupants likely to involve multiple fatalities	
Answer		Finding/Observation
Moderat	e Harm	

Ref.	Question	Policy Principles
ZAAR3	Premises Risk Rating	
	Trivial: No action is required and no detailed records	
	need be kept	
	Tolerable: No major additional controls required.	
	However, there might be a need for improvements that	
	involve minor or	
	limited cost.	
	Moderate: It is essential that efforts are made to	
	reduce the risk. Risk reduction measures should be	
	implemented within a	
	defined time period. Where moderate risk is	
	associated with consequences that constitute	
	extreme harm, further	
	assessment might be required to establish more	
	precisely the likelihood of harm as a basis for	
	determining the	
	priority for improved control measures.	
	Substantial: Considerable resources might have to be	
	allocated to reduce the risk. If the building is	
	unoccupied, it should not	
	be occupied until the risk has been reduced. If the	
	building is occupied, urgent action should be taken.	
	Intolerable: Building (or relevant area) should not be	
	occupied until the risk is reduced	
Answer		Finding/Observation
Moderat	e	

Ref.	Question	Policy Principles
ZAAR4	On satisfactory completion of all remedial works the risk rating of this building may be reduced to:	
Answer		Finding/Observation
Tolerable		

### **Risk Rating**

The following simple risk level estimator is based on a more general health and safety risk level estimator of the type contained in BS 8800:

Libelihaad of five	Potential consequences of fire			
Likelihood of fire	Slight Harm	Moderate Harm	Extreme Harm	
Low	Trivial	Tolerable	Moderate	
Medium	Tolerable	Moderate	Substantial	
High	Moderate	Substantial	Intolerable	

Taking into account the fire prevention measures observed at the time of this risk assessment, it is considered that the hazard from fire (likelihood of fire) at these premises is:

Medium

In this context, a definition of the above terms is as follows:

Low: Unusually low likelihood of fire as a result of negligible potential sources of ignition.

**Medium:** Normal fire hazards (e.g. potential ignition sources) for this type of occupancy, with fire hazards generally subject to appropriate controls (other than minor shortcomings).

High: Lack of adequate controls applied to one or more significant fire hazards, such as to result in significant increase in likelihood of fire

Taking into account the nature of the building and occupants, as well as the fire protection and procedural arrangements observed at the time of this fire risk assessment, it is considered that the consequences for life safety in the event of fire would be:

**Moderate Harm** 

In this context, a definition of the above terms is as follows:

Slight harm: Outbreak of fire unlikely to result in serious injury or death of any occupant.

**Moderate harmful:** Outbreak of fire could foreseeably result in injury (including serious injury) of one or more occupants, but it is unlikely to involve multiple fatali-ties.

Extreme harm: Significant potential for serious injury or death of one or more occupants likely to involve multiple fatalities.

Accordingly, it is considered that the risk to life from fire at these premises is:

**Moderate** 

A suitable risk-based control plan should involve effort and urgency that is proportional to risk. The following risk-based control plan is based on one advocated by BS 8800 for general health and safety risks:

Risk Level	Action and time table				
Trivial	No action is required and no detailed records need be kept.				
Tolerable	No major additional controls required. However, there might be a need for improvements that involve minor or limited cost.				
Moderate	It is essential that efforts are made to reduce the risk. Risk reduction measures should be implemented within a defined time period. Where moderate risk is associated with consequences that constitute extreme harm, further assessment might be required to establish more precisely the likelihood of harm as a basis for determining the priority for improved control measures.				
Substantial	Considerable resources might have to be allocated to reduce the risk. If the building is unoccupied, it should not be occupied until the risk has been reduced. If the building is occupied, urgent action should be taken.				
Intolerable	Building (or relevant area) should not be occupied until the risk is reduced.				

(Note that, although the purpose of this section is to place the risk in context, the above approach to fire risk assessment is subjective and for guidance only. All hazards and deficiencies identified in this report should be addressed by implementing all recommendations contained in the following action plan. The fire risk assessment should be reviewed regularly.)

# Life Safety Fire Risk Assessment Certificate of Conformity

This certificate is issued by the organization named in Part 1 of the schedule in respect of fire risk assessment provided for the person(s) or organization named in Part 2 of the schedule at the premises and / or part of the premises identified in Part 3 of the schedule.

#### Schedule:

Part 1a	Name & Address of Certified Organisation:
	Pennington Choices, Broofield House, Grimsditch Lane, WA4 4EA
Part 1b	BAFE registration number of issuing Certified Organization:
	102119
Part 1c	SSAIB 3rd Party Certificate Number:
	CHES077
Part 2	Name of Client:
	Lindsey Williams, CEO Futures
Part 3a	Address of premises for which the fire risk assessment was carried out:
	14-17 Howe Crescent Daventry Daventry NN11 4LX
Part 3b	Part or parts of the premises to which the fire risk assessment applies:
	Common Parts only (not dwellings, where applicable)
Part 4	Brief description of the scope and purpose of the fire risk assessment:
	Life Safety (as per agreed Specification)
Part 5	Effective date of the fire risk assessment:
	29/08/2022
Part 6	Recommended date for reassessment of the premises:
	29/08/2024
Part 7	Unique reference number of this certificate:
	109324

Signed for and on behalf of the issuing Certificated Organization:

James Hutton

Dated: 9/20/2022

# **Appendix 1. Action Details**

Ref.	Category	Priority	Comments	Recommendation	Quantity To Be Completed By Photo Ref.
F1	LIGHTNING	No Timescale	No lightning protection system was seen on site.	Recommend management undertake a risk assessment of the building to determine if lightning protection is required	
L1	FLAT ENTRANCE DOORS	High	The flat entrance doors all appeared in good condition and newly installed however there are different types and may not be compliant, and no flats were accessed	The flat entrance doors should be surveyed to ensure they will provide the required fire separation in support of an initial stay put policy	20/10/2022 L11
P7	MEANS OF GIVING WARNING IN CASE OF FIRE	Medium	No flats were accessed to establish what fire detection is provided inside	A category LD3 system should be considered the minimum in all circumstances". However, BS 5839-6:2019 states that "heat detectors should be installed in every kitchen. A smoke detector should be installed in the principal habitable room. Where more than one room might be used as the principal habitable room, a smoke detector should be installed in each of these rooms". It is recommended that each flat is checked to confirm that BS5839-6:2019 Grade D, LD2 detection is fitted.	19/12/2022
Q4	MEASURES TO LIMIT FIRE SPREAD AND DEVELOPMENT	High	No access to the roof space is provided	Management to check compartmentation within the roof space over the common area	20/10/2022
Q6	MEASURES TO LIMIT FIRE SPREAD AND DEVELOPMENT	Medium	No evidence is kept for inspection on site.	Management should confirm that where and if required fire dampers are provided as required	19/12/2022
Т6	PROCEDURES AND ARRANGEMENTS	No Timescale	Unable to confirm at the time of the assessment	Person Centered Fire Risk Assessments should be carried out on all tenants in general needs property, when required, and should be reviewed on an annual basis.	
V1	TESTING AND MAINTENANCE	Medium	All fire safety provisions require testing in accordance with the relevant guides or standards	The emergency exit push to release release buttons must be tested and recorded in accordance with BS7273-4:2015 The fireman's switch must be tested and maintained in accordance with BS 7671	19/12/2022 V11
Y1	ENGAGEMENT WITH RESIDENTS	Low	Unknown.	Ensure residents are informed of all relevant fire safety matters using different formats including letters, posters, social media etc	19/03/2023
